I hope everyone enjoyed their run round Llandaff North and Whitchurch and didn't get too confused with the slightly unusual scoring system! It was my attempt to give equal weighting to the year and the non-year controls while encouraging people to venture away from the main roads, where a lot of the year controls were located. Apologies about control number 1, which was marked at the wrong junction - from comments received it seems that most competitors realised this was a mistake fairly quickly. I think that the scoring system may cause a few queries here as it increases the relative difference between those who do well and those who don't. You need to take the square root of the overall score before applying the handicap factor.
